

QDCC

Chairs Report 23 April 2012

Echline Park

Representation was made to QDCC and Councillor work by residents representatives requesting that City of Edinburgh Council lay in a footpath from Echline Steadings to Echline Park .

A request had previously been made to QDCC. As the open space is **not** adopted then CEC cannot assist. They residents representative was advised and given advice about taking this forward as a community project.

Corus Site

A Ms Senga Cuthbertson contacted me about the poor condition of the land to the rear of the property at 1 Stewart Terrace. As the land belongs to Corus and I am in discussions with them regarding the annual tidy up then this work subject to their agreement can be incorporated into the plan of work. The grounds maintenance contractor has quoted for the work and I am awaiting approval from Mr Andrew Clayton of Corus.

Ferrymuir

I have been in correspondence with Jmaes Pitt Development Director who will be in Edinburgh mid to late May and QDCC will get an update on the Ferrymuir development plans.

Hustings Local Elections

Mr John Longstaff has been in contact with me asking if QDCC will be facilitating a hustings prior to the local government elections.

Planning – request for Supporting Statement

I was asked and have given a supporting statement for the Orroco Piers architects who are working on behalf of clients in Kinghorn and seek planning approval from Fife Council for a similar but smaller development.

Access Rd to Port Edgar from Echline Corner

On Friday 13th April I attended a meeting organised by the TSC Convenor to discuss any options that the FRC presents in laying in a new access road to Port Edgar and Hopetoun House/ estate. This action arose from one of many recommendation from Mr D Anderson in his response to QDCC that they respond to the LDP.

Bids

I met with Diane Brown project manager Bids at her request to get an update on the project.
